

1220-169 CROWN GARDENS UPDATE

Hi Charlotte

As promised please find below an update with regard to Crown Gardens for the meeting next week.

Chorus Homes are still experiencing delays that is preventing the opening of Crown Gardens. This is being caused by the need for further compliance related checks and relevant certificates being signed off. This has proved very frustrating.

Management have taken the decision, that due to the holiday season we will not be moving any customers into Crown Gardens before Christmas. The initial intake of customers will now be in the New Year. This will ensure the needs of customers can be accommodated and the transition is smooth for all involved, including local residents.

I hope you have a lovely Christmas and wish you all the best for 2021.

Kind regards

JULIET MAY

House of Commons
London SW1A 0AA

Dear Jonathan,

Following your letter dated 4th November I am writing to inform you of Alconbury Parish Council's position regarding London Luton Airport and NATS Airspace Change Proposal. At our meeting on 24th November 2020 we voted to object to the proposal. I have submitted our objection to the proposal as part of the consultation process in accordance with the UK Civil Aviation Authority's CAP 1616 airspace change process.

I have included below the comments we have made:

Our main objection to the proposed change to the LLA flightpath is the expected increase in noise and air pollution which would affect our local environment.

Since the mid 1990's we have seen significant impact to our tranquil environment; A1/M extension between Alconbury and Peterborough and the recent improvements to the A1/A14 (Alconbury to Cambridge). Both of these developments have brought a significant increase in the level of noise and air pollution. The proposed change to the LLA flightpath would additionally adversely affect our environment once again should it be approved. We feel this is both unwarranted and unnecessary.

We note in your 2 page summary the following: 'If we were to do nothing, the current situation can be managed **safely** in the short term, however this would not be sustainable once traffic grows beyond pre-pandemic levels.' What data do you have to indicate that air traffic volumes will increase post-pandemic? In our opinion industry is scrutinising the level of business travel so we could actually see less of an increase than expected. In addition has the effect of Brexit been assessed regarding the UK position as an international air hub?

We would prefer the stacking system to be moved further to the west, away from the urban centres of St Neots, Huntingdon and Alconbury Weald.

Please feel free to contact me if you require clarification.

Kind regards

Tracy Gilbert
Alconbury Parish Council Chair"

(The response was also logged via the consultation designated web page)
